### Step 2: Confirmation of participation and preparation for return

After the approval of your application by BFA (the application will be sent by the return counseling organization) your return counselor will help you with the organization of travel logistics (including purchase of flight ticket by IOM, ID-documents).

### Step 3: Departure to your country of origin

When needed, the return counseling organization will bring you to the Vienna International Airport where you will receive departure assistance by the International Organization for Migration (IOM). You will also be assisted by IOM in transit areas (if you have a stop-over).

### Step 4: Start of the reintegration process

Before your departure you will be given the contact details of the ERIN partner organization in your country. Please contact that organization straight after your return.

The ERIN partner organization can also be contacted before the return, mainly through the return counseling sessions. If you have further questions afterwards you can also contact the organization by yourself.

During the first meeting with the ERIN partner organization in your country you will receive information about further steps in your reintegration process and the delivery of reintegration support will start.
